

RECYCLING SERVICES

WORKING TO MAKE LANDFILLS A THING OF THE PAST

WHAT'S IN OUR LANDFILLS?

According to the EPA, 146.1 million tons of municipal solid waste were sent to landfills in 2018. This waste was composed of:

Plastics	18.5%	Metals	9.5%	Let's bring these numbers down!
Paper/Paperboard	12%	Glass	5.2%	

Want to divert millions of pounds of recyclable materials from landfills, waterways, oceans, and your community? Evergreen will accept your recyclable materials. A rebate is paid for PET bottles, material and strap. Our goal is to support the circular economy and make landfills a thing of the past.

GOT RECYCLABLES? HERE'S WHAT WE ACCEPT

ABOUT EVERGREEN

Greenbridge division Evergreen was established in 1998 to recycle PET plastic bottles and provide a reliable supply of polyester resin for Greenbridge's portfolio of PET strapping. In 2021, a second recycling and rPET manufacturing operation in Riverside, California, was acquired, giving Evergreen a strong presence in the Midwest and West Coast markets. Today, Evergreen is among the nation's largest PET recyclers, processing more than a billion post-consumer PET bottles and producing over 80 million pounds of food grade rPET annually. Evergreen is a preferred supplier of food grade rPET pellets and flake to top global brands, helping customers increase recycled content in their packaging and meet sustainability goals.

HOW WE BUY

We purchase recyclable materials in full or mixed truckloads. Seller can deliver to our facilities in Clyde, Ohio, or Riverside, California, or Evergreen will arrange freight.

WHERE TO GO

Evergreen Midwest

› 202 Watertower Drive
Clyde, OH 43410

Evergreen West Coast

› 875 Michigan Ave.
Riverside, CA 92507

**Reducing reliance on
landfills is hard.**
